MULTI-LAYERED DRONE PROTECTION ON-SITE

LEADING SOLUTION TO DETECT DRONES

Locate both
drone and pilot

Real-time alert when a
drone enters your airspace

Respond and mitigate
drone threats

Distinguish authorized
from unauthorized UAS

Detect drone
before launch

Capture and record forensic
evidence for legal action

Identify UAS risks and
take precautions

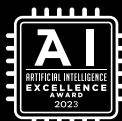

Make strategic decisions,
design SOPs based on real data

Extend your Standard
Operating Procedure (SOP)

CERTIFICATIONS AND AWARDS

Security Authority
The DedroneTracker® platform
is a NPSA rated product.

MULTI-SENSOR FUSION POWERED BY AI/ML

At the core of Dedrone's comprehensive solution is DedroneTracker.AI. This powerful airspace security software utilizes input from various sensors to detect the presence of a drone, and determine drone and pilot location. By analyzing behavior, imagery, flight data, and more, the AI engine

provides operators with a queue of risk-prioritized targets. This drone threat analysis is achieved through autonomous background interrogation of unauthorized drones, while seamlessly tracking multiple friendly drones.

RF SENSORS	PTZ CAMERAS	RADARS
DedroneSensors analyze RF signals and are able to detect and locate drones and pilots.	High-resolution imaging enables visual verification and can capture evidence of a drone's payload.	Radars are able to increase range of detection across multiple flying objects.
▶ Range up to 10 km ▶ Passive detection ▶ Installed quickly and easily	▶ Visual auto-tracking ▶ Payload identification ▶ Recording of forensic evidence	▶ Detection of multiple drones ▶ Independent of light / weather ▶ Drone localization and altitude

AIRSPACE SECURITY SOLUTIONS FOR ANY INDUSTRY

Our flexible suite of solutions can be tailored to meet any security requirement, ensuring optimal coverage and performance in any environment. Whether you're looking for aerial surveillance or a complete defense system, including drone mitigation, we provide the most comprehensive solutions possible.

 CRITICAL INFRASTRUCTURES	 STADIUMS	 AIRPORTS
 PUBLIC SAFETY	 CORRECTIONAL FACILITIES	 ENTERPRISES
